

CENTRAL NEW YORK EMERGENCY MEDICAL SERVICES COUNCIL

**PLEASE BE SURE TO CONSIDER THE FOLLOWING WHEN IMPLEMENTING
YOUR PAD PROGRAM**

- ! Clearly label your AEDs with your organization's name, phone number, and serial number.

- ! Develop an internal emergency response system - a plan of action for immediate contact of available AED operator(s) and activation of the EMS System (911 or ambulance service).

- ! Advise the 911 or ambulance operator that an AED is on the premises and may have been used.

- ! Advise the 911 or ambulance operator as to the exact location of the patient (ie: building, floor, suite, room, etc).

- ! Insure that all persons trained to use an AED and other key personnel (ie: security, etc.) know where to find the AED.

- ! Make a written schedule to be followed for the maintenance of the AED(s).
